Welcome to the second webinar supporting BWET / GME's Water Quality Training being led by Dr. Kevin Czajkowski, University of Toledo.

- Dr. C will kick off the webinar looking at GLOBE hydrology data.*
- Sara Guiher from TMACOG (Toledo Metropolitan Area Council of Governments) will give an overview of the Student Watershed Watch program and the results of student sampling and presentations from 2019.*
- Laura Kubiak and Rob Smith, high school teachers for Toledo Public School's, Aerospace and Natural Science Academy of Toledo, will share how water quality data supports cross-curricular learning and stewardship.*
